Top Skills

Swift (Programming Language)
Mobile Application Development
SwiftUI

Certifications

Machine Learning for iOS: Core ML and Create ML
Programming for Non-Programmers: iOS 15 and Swift 5
Swift 5 Essential Training
SwiftUI & Node.JS FullStack
Swift: Delegations and Data Sources

Honors-Awards

Codebit-Programming Competition
Speed Debugging
Procomm 2023- Speed Programming
Procomm-24 Mobile App Development

Hamza Hashmi

Senior Software Engineer at Avanza Solutions
Karachi Division, Sindh, Pakistan

Summary

https://hamzahashmi.web.app/iOS & Flutter Developer | Swift & SwiftUI Expert | Crafting Scalable & Intuitive AppsWith 5+ years of experience, I specialise in designing and developing high-quality iOS applications that deliver seamless user experiences. I have successfully built and published multiple apps on the App Store for diverse clients.Tech Stack & Expertise:— Swift, SwiftUI, UIKit – Building modern and responsive UIs— Dart & Flutter - Building cross platform mobile and web apps using Riverpod and Gorouter— MVVM & Clean Architecture – Writing scalable and maintainable code— REST APIs & Networking – Efficient data fetching and integrations— Firebase & Cloud Integrations – Authentication, Firestore, Realtime Listeners— AWS Mobile Integration using Amplify (Cognito, Appsync, S3)— Core Data, Swift Data, Realm, ObjectBox – Efficient local storage solutions according to use cases— In-App Purchases & App Store Deployment – Monetisation & distribution— CoreML & Vision – Implementing AI-driven featuresCareer Goals:I’m eager to grow into a senior Mobile Application Developer role, focusing on architecture, AI integration, and product development to create impactful mobile solutions.Programming Competitions:— Runner-up in Mobile App Development Competition at Procomm’24 (FAST University)— 4th Position in Programming Competition at CodeBit (UBIT, University of Karachi)

Experience

Avanza Solutions
Senior Software Engineer
September 2026 - Present (2 months)
Karachi Division, Sindh, Pakistan

Black Cube Technlogies
iOS Developer
August 2024 - July 2026 (2 years)

Karachi Division, Sindh, Pakistan

I led multiple end-to-end iOS projects, owning architecture, development, performance optimisation, and delivery. My work focused on building scalable, high-performance apps using Swift, SwiftUI, SwiftData, MVVM, Firebase, Supabase, AVFoundation, and modern Apple frameworks.

I delivered apps across diverse domains — social media, sports analytics, and AI fitness — while ensuring clean architecture, maintainable code, and smooth user experience.

Key Projects

• Visual Eyes – Athlete & Coach Video Analysis App
Advanced video-highlighting platform with frame-by-frame scrubbing, annotations, screen recording, and a custom camera (720p to 4K @ 30/60/120/240fps). Implemented camera pausing/resuming, smooth video playback, and Supabase-powered upload, sharing, and team workflows. Designed a modular MVVM architecture with offline-first support using SwiftData.

• Cal 2 – AI-Powered Calorie Tracker
Built a food-recognition camera using a custom-trained CoreML model, with GPT-4o fallback for complex items. Integrated Nutritionix APIs for calorie/ingredient estimation and Firebase for storing daily logs. Delivered the project despite model-training blockers and diverse food variations.

• Aquivalent - AI Powered Strip Analyser
Built an app that scans pool test strips with AVFoundation + Core ML, analyses colors on-device, and gives precise chemical recommendations tailored to your pool. Uses SwiftUI, Vision, Firebase (Auth/Firestore/Storage). Includes history, charts, and profile/pool management. Learned a ton about camera pipelines, Vision overlays, and domain-driven dosing logic.

Byte Shift
iOS App Developer
November 2020 - August 2024 (3 years 10 months)
Karāchi, Sindh, Pakistan

I am currently developing and submitting iOS Applications to App Store using SwiftUI, UIKit and Firebase

Education

Karachi University

BSCS, Computer Science · (February 2021 - December 2024)

Commecs College

Computer Science · (August 2018 - July 2020)
